

hale

WIELAND
healthcare

modern *and* durable for healing environments

Like all Wieland products, the Hale family is designed with infection prevention, beauty and durability in mind. The powder coated heavy gauge steel frames are easily cleaned. Hale is welded at all joints, supporting a 550-pound weight capacity. The molded foam seat cushions provide long-lasting comfort.

shown with optional casters

easy access chairs fit seamlessly

A higher seat comfortably accommodates patients who are recovering from knee and hip surgery. Patients using the easy access chair avoid bending their joints more than 90 degrees and flexing their hip. Hale easy access chairs also reduce the risk of injury to caregivers, as less effort is needed to help a patient sit or stand from the higher seat.

poetry in motion

Enhancing the patient experience is the goal, whether a new mom is rocking her baby to sleep, or a loved one is calmed while awaiting news from a surgeon. Hale's smooth, gentle movement is sure to soothe.
